Very buggy, menus are very sloppy, jumping is way too slow in the "mario" worlds. Loved the music ! Probably one of the best points of this game . The game it self it's short and time to time a little bit frustrating and with some dedious mechanics time to time but very understandable being this the first game the boy makes ! Finished this after months since the first version was too hard ! I raccomand this playing the dude is preatty young and buying the game will give him some feedback and whynot make some good games in the future :). Great game, easy to play and fun to travel through game styles. Loved it !!
